

BAD SMASH UP
Two Men Killed and Dozen Injured

Express Train on Central Railroad of New Jersey Badly Wrecked.
AN EXTRA ENGINEER Who Was Riding Home In the Cab of the Engine Among the Dead.
Locomotive Left the Track When It Struck a Sharp Curve.

Philadelphia, Pa., Dec. 1.—Two men were killed and about a dozen others injured in the wreck on the Philadelphia Express on the Central railroad of New Jersey, near Penna Haven Junction, about 100 miles north of Philadelphia. The dead are Fireman Rupert, of Mauch Chunk, Pa., and an extra engineer named Dettmer, who was riding home on the locomotive.

One of the injured were taken to Lakes hospital at South Bethlehem, about 9 miles south of the scene of the wreck. They are: Howard A. Fuller, aged 18, compound fracture of the leg; R. A. Lindsey, Philadelphia, concussion of hip; E. E. Delong, Philadelphia, concussion of the legs; Thos. Goodwin, Philadelphia, lacerated wounds of the head; Samuel Shultz, a clergyman, of Lansford, Pa., lacerated wounds of the scalp.

M. B. Tilow, South Bethlehem, severe wounds of the head; Geo. M. Wilson, East Mauch Chunk, lacerated wounds of the express train, lacerated wounds of the legs and arms; Chas. Brady, Lansford, compound fracture of the nose; F. O. Finkner, badly smashed.

The baggage master of the train sustained a fracture of two ribs. He was removed to his home in South Bethlehem. The accident occurred a short distance south of Penn Haven Junction according to a story told by engineer. The locomotive of the express left the track at a sharp curve. The engine, followed by a combination baggage and smoker and a coach jumped across the north road track and plunged twenty feet down upon the tracks of the Lehigh Valley railroad, which parallels the Central road at this point. The engine on the Pullman car, the only one that broke and the Pullman ran down the track for some distance. The coaches that went over the embankment were badly wrecked and it is considered remarkable that none of the passengers lost their lives.

When the wreck occurred at night it was a dark, foggy night, and it was some time before the accident became known at Mauch Chunk. A relief train was immediately sent to the scene and by the time it arrived all the injured had been taken from the wreckage and placed in the warm Pullman car awaiting removal to the hospital. It was 2:30 a. m. before the train arrived at South Bethlehem. The coaches of the uninjured passengers arrived in Philadelphia at 4 o'clock this morning.

Eighteen Injured.
New York, Dec. 1.—The following statement was given out at the office of the Central railroad of New Jersey: "No passengers were killed in the wreck near Penna Haven Junction last night. Only two persons were killed, the engineer and a man. There were eighteen injured, of which the most serious are, a man whose thighs are broken and a boy whose skull is fractured."

The home of Mr. and Mrs. Sylvester Roberts, one mile west of Beaverdam, was the scene of a very pleasant Thanksgiving wedding, Thursday evening at 6 o'clock. The occasion was the marriage of their only daughter, Tessie May, with Mr. John H. Cox, of this city. The marriage ceremony was performed by Rev. A. E. Davis, of the United Brethren church, this city, in the presence of a large number of invited guests, relatives and friends. Mr. Milton Hattie and Miss Anna Cunniff acted as best man and bridesmaid respectively. The ceremony was performed beneath a bell hung from an arch of evergreen. The bride was dressed in white mulle and carried armings and carried a beautiful bouquet of roses. The bride's maid was also dressed in white null and carried an equally beautiful bouquet of carnations. After congratulations the guests sat down to an elaborate and elegant dinner of turkey and all attendant details.

Many beautiful and costly presents were brought by the guests and all went merry as "A Marriage Bell."
Mr. Cox is an employee of the L. E. & W. railroad company and has his home all furnished at 1006 North West street, where they will be at home to their friends. BIG DAMAGE TO CARGO

Reports From Upper Lakes Show Weather Is Better and Sea Is Down.

This Condition Will Help In Saving Many Vessels Now Stranded.

Duluth, Minn., Dec. 1.—A message received here from Port Arthur, Ont., says the Canadian steamer Monkshead, of the Algoma Central line, is ashore at Pie Island near Port Arthur. The crew was saved, but the vessel is a total loss.
The H. B. Nye got into Two Harbors last night, badly battered. Her cargo of flax, valued at \$240,000 is damaged also. The three men who lost their lives on the scow Edwards at Two Harbors, are Ole Miller, George Olson and Ole Nelson all of Duluth. When the scow went on the rocks, Wm. Hicks and Chas. Johnson, saved themselves by jumping to shore. The other three lacked courage and as the scow broke, shouted their last good bye and disappeared. Hicks and Johnson were rescued by fishermen.

Cleveland, O., Dec. 1.—A telegram received at the office of the Pittsburgh Steamship Co. here today from Two Harbors, Mich., states that the steamer Wait with the large Thomas in tow has arrived safely at that port. These vessels had not been heard from since the big storm of Tuesday.
Reports received here today from upper lake ports show that the weather has moderated greatly and that the sea has gone down. This condition, no doubt, will materially assist the saving of the stranded vessels.

PRICE OF SILVER IS JUMPING FAST.

San Francisco, Dec. 1.—Silver is jumping up in price. It is now 65 1/2 cents per ounce. This is the highest price since 1896. Two months ago the market quotation was fifty cents. Demand is greater than supply, says brokers in accounting for the higher price. But they also say that in addition to a legitimate business demand there is also a speculative demand which must be taken into consideration.

THE IDLER.

"Put" Sandles, the democratic hustler from Putnam county, was in the city last night, the guest of Attorney Seacrest. He left this morning for Columbus, and it is intimated that his mission there has to do with the oil inspectorship.
Mr. Sandles has many warm friends in Northwestern Ohio, who believe there is nothing too good for him from a democratic administration, and they, together with the Times-Democrat hope he will pull down the plum.

The Times-Democrat takes pleasure in recommending the performance of "Cousin Kate" which will be given tomorrow afternoon and evening at Fauriol's opera house, in which Miss Virginia Drew Treseott essays the stellar role under the management of Mr. Joseph Shipman. "Cousin Kate" was a brilliant success in London and New York and is one of the cleanest and most wholesome of plays—full of comedy, pathos, and the finer touches of humanity. We have seen the play and can with pleasure recommend it as a delightful and high class production. Miss Treseott is an actress of splendid capabilities, fine stage presence, and rare versatility, and the company supporting her is evenly balanced and meritorious.
The attraction is worthy of two large audiences, and we trust it will have them.

AKERMAN AND JAP
Are Matched For a Mixed Contest at Auditorium.

Next week will be the last week of the Auditorium as a roller skating rink. Manager Finley has determined to convert the popular place into a dancing academy and an auditorium for indoor athletics. In the latter line a star attraction is already on the boards for the near future. Al Akerman, the clever cat on catch can wrestler, has accepted the challenge recently issued by Yamagata, the famous Japanese jiu jitsu wrestler, for a mixed contest, in which the jiu jitsu and catch can styles of wrestling will both be used for separate falls. Toledo made a strong bid for this match but Akerman declined to accept the offer, declaring that what is good enough for Toledo is good also for Lima and he proposes to show his fellow townsmen here at home what the jiu jitsu game is. He is confident that he can defeat the Jap at the catch can game and is willing to take chances on holding his own in the jiu jitsu style.

ON WESTWARD

Will the Business District Extend
If This Land Deal Now Pending Is Completed as Arranged.

HUNDRED-FT. SQUARE
Bounded By West and High Streets Site For a New Block.

First Baptist Church to Sell the Corner to James O. Ohler.

The tide of commercial Lima is to the west, and a deal now in course of progress, and so far advanced as to admit its ultimate completion, shows the desire of men of affairs to center about the government building.
This new enterprise is the purchase of the lots at the corner of High and West streets, by James O. Ohler. This land-site is now owned by the First Baptist church, and it is understood will be sold under the terms, on which a retain has already been paid.
The property is an even one hundred feet square, and the purchase price inclusive of commissions paid by the buyer, will be \$12,000.
Mr. Ohler when seen today acknowledged the deal on, but stated that it had first to be ratified by the church trustees and court permission secured. When asked as to the object of the purchase, he stated it was for a site on which would be erected a handsome four story business block. "No better site could be secured for business," said Mr. Ohler, "and I already have lessees who will gladly take the property as soon as a suitable building can be erected. No, I do not care to state who these lessees would be, but it would be for commercial pursuits, and means the extension westward of the business district."
It was also rumored that the Lima Club property was included in the purchase, but Mr. Ohler denied this. If the deal is perfected Mr. Ohler will at once remove the two residences on the site and start construction on the block which would be completed within six months.

CRITICAL DAY
The Crisis in Russia Continues

Telegram Tie Up Throughout Country Is Practically a Perfect One.

DELIVERING OF MAIL

In St. Petersburg Was Stopped by Emperor's Order This Morning.

Country Is Threatened With Horror of a Peasants' Insurrection.

St. Petersburg, Dec. 1.—The crisis continues. The telegraph tie up throughout Russia is practically complete and the government does not know what is happening in the interior of the empire. Embassies of the strikers have been sent to Finland to induce their comrades to join the strike.

Much as the government would like to resist it is powerless, with the threat of a general political strike next on Monday hanging over its head and the fact that Interior Minister Durnovo will probably be sacrificed to secure the resumption of telegraph communication. At the same time the government is fully conscious that the demands for the reinstatement of the leaders of the Telegraphers' Union and the dismissal of M. Durnovo are mere pretexts and that its surrender will only serve to encourage the revolutionists to new efforts. Those following the tactics in the case of the Cronstadt mutineers are certain to take the form of a fight to save the lives of the Sebastopol mutineers for the purpose of again proving the proletarians solidarity with the army and navy. The Russ declares the situation is such that the government is unable to guarantee that tomorrow the guns of Cronstadt will not bombard the capital.

The country is threatened with a counter-revolution with all the horrors of a Jacquerie (insurrection of peasants) and it becomes more and more apparent that there are only two modes of egress—the government must put the whole country under a dictatorship and martial law or proclaim a ready-made constitution. Premier Witte refuses to consent to the former although the court officer and imperial guard are clamoring for it. The advocates of the latter are increasing. M. Souvorin, editor of the Novo Vremya, openly announces this is the only positive hope of rallying the moderates of the country to the support of the government.

The Associated Press learns that none of the Sebastopol mutineers will be executed. No further details are obtainable of the circumstances.

Moscow, Dec. 1.—The emperor today signed a decree abolishing martial law in Russian Poland.

St. Petersburg, Dec. 1.—The delivery of all mail matter was stopped in St. Petersburg this morning.

ADA MAN ABUSED WIFE

And She Took Flight From Her Spouse to the City of Refuge.

According to the petition for divorce filed by Mrs. Tummell today she has been bitterly abused by her husband, Richard Tummell, to whom she bore eight children, and who is alleged not to have hunted for a Spanish stiletto with which to make his death-thrust, but seized the family scissors, as the weapon for his mad attack upon his wife of a quarter century. The couple married at Kenton and went to Ada to reside immediately afterward in the year 1882, and there in the classic village of culture were raised the family of eight children, but the wife alleges her husband took to drink, and was guilty of gross neglect, failing to provide, then followed the stage of extreme cruelty, reaching the acute period when he attempted to end her life with a death-thrust from the family scissors. Failing in this, she says, he afterwards frequently attacked her with knives. The end when patience ceased to be a virtue, came in 1904 in the months of February and March, when whiskey was more frequently indulged in, and cruelty increased, until wife and mother was driven from home in the latter month, and she sought the place of refuge, Lima, where she has since resided and cared for her minor children. She says defendant owns a lot in Ada; seeks alimony pending suit and for permanent relief, and a decree of divorce.

In the Toils. Wm. Sawmiller was admitted to residence in the Hotel Barr today pending disposition of the charge of burglary and larceny by the next grand jury.

Gift to Bride and Groom. A prettily encased deed for the corner lot, High and Jameson avenue, was filed for record today, a grant from Mr. and Mrs. Samuel A. Baxter to Frank E. and Elma Burton Baxter.

FEEDS INJURIOUS TO HORSES.

In feeding horses precautions should always be taken to avoid materials harmful in themselves, or those which have become harmful. Dirt, small stones, etc., should be removed from grain by proper screening and all feeding stuffs should be clean.

There are a number of plants which are poisonous to horses when eaten in any considerable amount. The loco plants, mostly species of Astragalus, are ordinarily regarded as of this class. These plants have been studied by the Colorado, Kansas, South Dakota, Montana and Oklahoma stations, but the results obtained are not entirely conclusive. The poisonous properties of rattlesnake (Crotalaria sagittalis) were demonstrated by the South Dakota Station, and those of osage lupines by the Montana Station. According to recent experiments at the Vermont Station the common horse tail (Equisetum arvense) may cause poisoning when present in hay. It was found that when horses were fed cured horsetail equal in amount to not more than one-fourth of their coarse fodder ration, symptoms of poisoning were noticed, and if the feeding continued the horses died. The symptoms of poisoning were less noticeable with young than old horses, and also when a liberal grain ration was supplied. It was also observed that the green plant was less harmful than the dry, possibly owing to the fact that green fodder is somewhat laxative.

Feeds which are ordinarily wholesome may under certain conditions be harmful. Thus, there is a widespread and apparently justifiable prejudice against moldy or decomposing feeding stuffs. Experiments carried on at the Kansas and Indiana stations showed that the continued feeding of moldy corn induced intestinal and nervous disorders of a serious nature. It is a matter of common observation that feed which has been wet, will ferment or sour readily and cause intestinal disorders. This has to be guarded against, especially in warm climates.

Plants which are ordinarily wholesome may become harmful if infested with ergot. The effect of ergot on horses has been studied by the Iowa, Kansas and Montana stations and others. It is generally conceded that the presence of ergot is a cause of rheumatism. Some feeds which are regarded as wholesome when properly fed may sometimes prove injurious if fed for a long time or in improper quantities. Thus, millet hay in many sections of the western United States, is believed to cause the so-called millet disease of horses. This question was studied by the North Dakota Station. It was found that long-continued feeding of millet hay caused lameness and other symptoms of poisoning, but the specific cause to which the dangerous properties of millet are due was not learned, though later work at the station indicates that it is a glucosid.

An explanation of the poisoning of stock by young sorghum and some other forage plants is offered by the discovery of a peculiar glucosid in a number of varieties of sorghum (Sorghum vulgare), which, under the influence of a special ferment, present in the plant, liberates prussic acid. It is thought probable that this acid,

which is a very active poison, may be likewise liberated in the digestive tract of animals feeding on the young plants.

For a number of years the Nebraska Experiment Station has studied sorghum poisoning, and has recently demonstrated the presence of prussic acid in the green leaves of young and old sorghum plants and Kafr corn. The poison, it is stated, is always present in at least minute traces, but becomes dangerous only when the plant is arrested by dry weather at certain stages of its growth. Sunlight, such as prevails in the arid and semi-arid regions of the United States, causes the development of the poison in excess.—Bulletin Dept. Agr.

FEET SMALLEST AT NIGHT.

"I am going abroad," said the patron, "for two years. I want you to measure me for eight pairs of shoes."

"Yes, sir," said the bootmaker. "I shall be glad, sir. But I would prefer to measure you in the afternoon, rather than in the morning. Could you return today or tomorrow at 3 or 4 o'clock, say."

"I suppose so," said he patron. "But why can't you measure me now?"

"It is too early, sir. Your foot has not yet acquired its size for the day. If I measured you now, the shoes would be little too small."

"Walking about on our feet as we do, the feet grow, develop, swell—whatever you choose to call it—from rising time until about 3 in the afternoon. At 3 they have their full size for the day. They retain this size all we retire, when they shrink up again for the night."

"Once to have well-fitting, comfortable shoes, it is necessary to be measured in the afternoon."—Providence Journal.

"I suffered habitually from constipation. Doan's Regulax relieved and strengthened the bowels, so that they have been regular ever since."—A. E. Davis, grocer, Sulphur Springs, Texas.

THERE TO LEARN BUSINESS.

Two lads were in a shop one day, where they were both learning the business, but times were dull, no customers turned in, and they had nothing to do. One said: "Let us have a game of draughts," the other said: "No, I am here to learn the business," and he went on examining some new goods. His interest was awakened, he found they were faulty. He reported the matter to the head of the firm, and while the examination went on, the other boy was on the doorstep watching his time with others who had gathered around. Can you wonder that one went up, and the other down? Always be firm, alert, self-reliant; yourself and not another. Uncle Harry in Church Family News-paper.

A NEW PASTOR

Solemnized Three Pretty Weddings

As Thanksgiving Offerings to Hymen's Altar During Yesterday,

OVER IN SOUTH LIMA

The Taylor-Rise, Cartmell, Bearinger and Kaiser-Williams Event.

Thew Jewelry Store Robbed. Social Doing, Personals and Local Notes.

Wedding events were the principal Thanksgiving events in south Lima, and it will be noticed that the Rev. C. C. Kennedy, the new pastor of Grace church, was the chosen minister who officiated at three pretty ceremonies.

RALPH M. TAYLOR

Is Now the Husband of Miss Daisy F. Rise.

At six o'clock last evening, in the beautifully decorated parlor of Mr. and Mrs. Samuel Rise, 718 south Main street, their daughter, Daisy Florence Rise, became the happy bride of Mr. Ralph Martin Taylor, Rev. C. C. Kennedy using the impressive ring service in uniting these young people in holy wedlock.

The bride was charmingly attired in a gown of crepe de chene, and carried a bouquet of white roses and ferns, while the groom wore the usual black. They were attended by Miss Jeanette Taylor, a sister to the groom, and Joseph Miller.

At the stated hour, in the presence of about sixty invited guests, the happy couple entered the parlor to the music of Mendelssohn's wedding march, played on the piano by Miss Lydia Hartman, and took the wedding vows, after which congratulations were offered during a period of musical meditation furnished by Mrs. I. L. Morris, at the piano, and Mr. Morris and Miss Loyola Hartman, violins.

Many and beautiful were the gifts of furniture, china, silver and linens bestowed upon the bride. A fine wedding dinner closed the happy event.

The groom is a machinist at the Lima Locomotive & Machine Co's plant, and has prepared home on Broadway, where they will be at home to their many friends after December 1st.

Out of town guests were Mr. and Mrs. Howard Beers, of Unionopolis, and Mr. and Mrs. Wm. Cohensparger, of Harrod.

KENTUCKY GENTLEMAN

Claims a Charming South Lima Girl For His Bride.

The impressive Episcopal ring ceremony, officiated by Rev. C. C. Kennedy, pastor of Grace church, made the wedding of Mr. H. E. Cartmell and Miss Ethel Bearinger, a beautiful Thanksgiving event.

The ceremony took place at the home of the bride's mother, Mrs. Mary F. Bearinger, 737 Greenwood avenue, at 10 o'clock yesterday afternoon, and the happy couple were attended by Miss Willo Hanley, of Bucyrus, and F. McDonald, of Delaware. Immediate relatives and a few intimate friends witnessed the event, and afterwards partook of delicious refreshments. Many beautiful

tokens of esteem and friendship were received.

The groom is connected with Berea College, Kentucky, as its auditor, and his bride was a teacher in that institution until last June, when she resigned and came to this city. They will make their home in Berea, and left last evening over the C. & D. for that city.

Out of town guests were the groom's parents, Mr. and Mrs. G. Cartmell, of Berea, and the bride's sister, Mrs. Amy Bearinger and daughter, Cecel, of Ada.

LAST EVENING

Rev. Kennedy Performed Another Marriage Ceremony.

At 7:30 o'clock, the Rev. Kennedy participated in the wedding of an Indiana grocer to a Lima lady. The contracting parties were Miss Cora Williams, of east High street, and Mr. Louis Kaiser, of Kendallville, Ind.

In a few days Mr. and Mrs. Kaiser will go to their Indiana home.

Family Dinner.

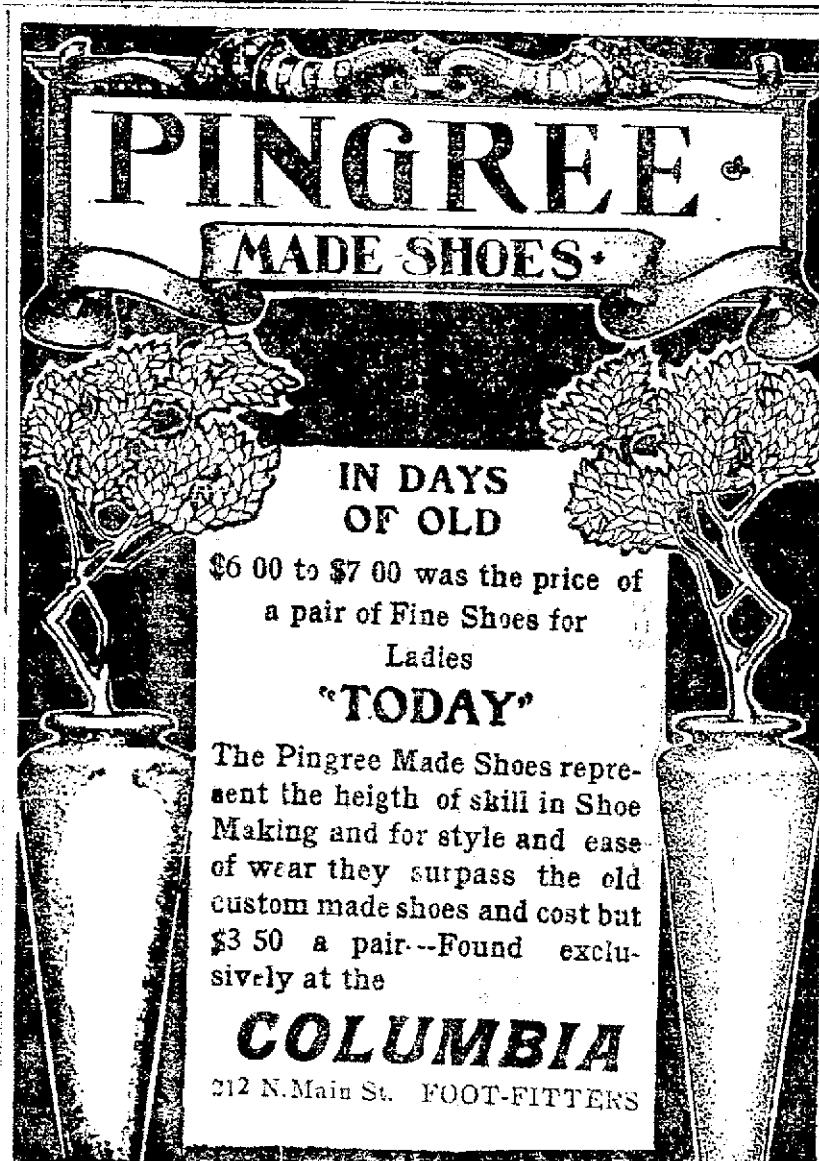

A happy Thanksgiving event was the gathering together of relatives and friends at the home of Mr. and Mrs. B. M. Darby, of west Kibby street, where a big dinner and various amusements were enjoyed. Those present were: Mr. and Mrs. Edward Dickens and sons, of Sandusky; Mr. and Mrs. J. H. Smith and children, of Lafayette; Mr. and Mrs. I. E. Stewart and Mrs. Alice Preston and son, of Ada; Mr. and Mrs. J. W. VanEman, Mr. and Mrs. J. R. Dickens, sons and daughter, Mr. and Mrs. O. T. Lippincott and children, city.

TWO ROBBERIES

Inside of Forty-eight Hours And No Arrests as Yet Reported.

Night before last thieves broke a front window at Damm & Company's second-hand store on south Main street, and reaching through the hole secured a lot of revolvers, knives, etc. It is thought to be the work of night-riding boys, but no clue has been obtained.

his parents, returning last night. On entering his store, north of Smith's dry goods store, he discovered that somebody had been there ahead of him and had carried off about \$400 worth of holiday jewelry which he had just received a day or two ago.

The thieves had tried to make an entrance to the store by going into the cellar, but finding the cellar-door bolted, retreated, and finally succeeded in making an entrance through the rear door. From an observer, it looks like the work of boys. A hole was made in the transom above the rear door, and by reaching inside, the bolt, which fastened the double doors was slipped out of place and the door opened; then after securing what booty they wanted, the thieves walked out, pulling the door shut and the bolts sprung back to place.

Mr. Thew was reluctant about saying anything about the matter, but finally said that his loss would reach about \$400, mostly watches, chains, diamond brooches, etc. There is no clue to the thieves, but it must have been home talent, as the town is literally lousy with thugs and petty shop-lifters and thieves.

THE STAGE.

It is the custom of actresses who are known as "stars" to receive many laudatory notes from persons who have seen them in one role or another, but few there are who have had more or better delightful missives than Virginia Drew Treseott, who is appearing in the title role of "Cousin Kate," this season under the management of Joseph Shipman. Among the ones of which she thinks the most is one written by Mrs. Henry George, wife of the famous statesman, after having witnessed Miss Treseott's performance as "Rosamund." In "As You Like It," which says that: "Never since the days of Athaliah Nelson have we seen Shakespeare's lovely character better portrayed. 'Cousin Kate' will be seen here tomorrow afternoon and evening.

ENDED IN DISPUTE

Lima High School Players Claim a Victory Over Delphos Team,

AND DELPHOS CLAIMS

That the Score Was Tied

With a Legitimate Play

In Last Half.

The football contest between the Lima and Delphos high school teams, played at the driving park grounds yesterday afternoon, was somewhat exciting but was not as pleasing for the patrons as it was expected to be. There were two features that were too aggravating to be offset by the real spirit of the contest--unnecessary delays and continual wrangling between the players.

The result is in dispute. Lima claims to have won the game by a score of 12 to 6 and the Delphos players claim the score was tied by them in a legitimate play that was made just before the contest was called on account of darkness. Each side scored a touchdown in the first half of the game and Lima scored another early in the second half. Then the game ended in a wrangle when the Delphos quarterback, Reeves, suddenly dashed behind Lima's goal and placed the pigskin on the ground, claiming a touchdown. The Lima players claimed Reeves had stolen the ball and had attempted a trick play in the semi darkness. The Delphos official upheld the Delphos team in the play, while Landiek sustained Lima's claim that the ball had not been secured by Reeves in a legitimate play. Delphos went ahead and kicked a goal in spite of the protests and the game was called while the wrangle continued. Lima, however, claims the victory with a score of 12 to 6.

OCTOGENARIANS ARE VEGETARIANS.

Eight octogenarians of ages ranging from 80 to 91, one of them a woman, were the principal figures of a recent meeting convened by the London Vegetarian association. The hall was crowded, but not altogether by vegetarians, one or two skeptical interjections suggesting the presence of some carnivorous Philistines among the audience. The chairman was C. P. Newcombe, who, despite his 89 years, spoke at considerable length in a loud clear voice and with much vigor. The burden of his address was that one is not too old at 80 or even 100 if he enjoys the blessings of health, which can be secured by a nonflesh diet.

Floor Turns Round

DIZZINESS COMPELS MRS. GAGNER TO QUIT WORK.

Dr. Williams' Pink Pills Restore Her to Perfect Health and Strength.

Mrs. Mary Gagner, of No. 376 south Summer street, Holyoke, Mass., has passed through an experience which proves that some of the greatest blessings of life may lie within easy reach and yet be found only by mere chance. A few years ago while she was employed in the mills she was suddenly seized with dizziness and great weakness. "I was so weak at times," she says, "that I could hardly stand on my feet, and my head became so dizzy that it seemed as if the floor was moving around."

"My condition at last became so bad that I was obliged to give up work in the mill, and later still I became so feeble that I could not even attend to my household duties. After the slightest exertion I had to lie down and rest until I regained strength. "A friend who had used Dr. Williams' Pink Pills for Pale People urged me to try them. I bought a box and began to take them. The benefit was so positive and so quickly evident that I continued to use the pills until I had taken altogether six boxes. By that time I was entirely cured and for two years I have had no return of my trouble. I am now in the best of health and able to attend to all of my duties. I am glad to acknowledge the benefit I received, and I hope that my statement may be the means of inducing others who may suffer in this way to try this wonderful medicine."

"The secret of the power of Dr. Williams' Pink Pills in cases of debility, such as Mrs. Gagner's, lies in the fact that they make new blood and every organ and every tiny nerve in the body feels the stir of a new tide of strength. The effect is not a brief stimulation, but a steady building up of the wasted tissue and a constant supply of fresh vital energy wherever it is needed until perfect conditions of health are established. These pills are sold by all druggists. For further particulars write the Dr. Williams Medicine Company, Schenectady, N. Y."

SCROFULA AN AWFUL INHERITANCE

While it is true that Scrofula may be acquired under certain conditions, it is usually inherited. Parents who are related by the ties of blood, or who have a consumptive tendency, or family blood taint of any character, are sure to transmit it to their children in the form of Scrofula. Swollen glands, brittle bones, poor digestion, weak eyes, Catarrh, emaciated bodies and general weak constitutions are the principal ways in which the disease is manifested. The blood has been diseased from birth, and being in this condition cannot properly nourish the body and Scrofula is the result. A hereditary disease like this can only be reached, by a constitutional remedy and nothing equals S. S. S. as a cure for it. It cleanses and strengthens the deteriorated blood, drives out all scrofulous and tubercular deposits, and there is a gradual but sure return to health. S. S. S. supplies to the anemic, lifeless blood the properties necessary to build back to strong, robust health, and does this gently and so thoroughly that no signs of the disease are ever seen in after life. Being purely vegetable S. S. S. is the best remedy for Scrofula; its harmless but healing ingredients enter into the circulation and replace wax-like, bloodless faces with vigorous strength glowing with health. Book with information about Scrofula and medical advice free.

And now it is poor Bacom and Joe

The way the people came down on

AMOS FOR ADJUTANT GENERAL.

Hon. W. T. Amos, of the Sidney
News, is a candidate for appointment
as adjutant general under Governor
Patison, and he has many qualifica-
tions for the office. For twelve years
Mr. Amos has been deeply interested
in the O. N. G. and during that time
has been a member of the third reg-
iment which honored him first with an
appointment as captain, and later with
a lieutenant colonelcy.

Mr. Amos is a sterling democrat,
and a brilliant editor who has in many
campaigns done splendid work for his
party and the cause of the people.

His appointment would be a credit
to the administration, and the party,
and with earnestness, we hope his
claims will be successfully presented.

IT IS REMARKABLE.

"It is indeed remarkable to see
what a number of Cox-Herrick ma-
chine papers were either lying before
election or are lying now," says the
Allen Issue.

"Before the election they were de-
claring that the contest was of national
significance, that a vote for Patison
was a vote against Roosevelt, that the
endorsement Roosevelt got would be
measured throughout the United
States by that received by the head of
the ticket in Ohio—Herrick—and not
by the rest of the republican ticket,
etc., etc."

Since the election, they have all
discovered that the election had no
national significance at all, that it had
any relation to Roosevelt. What-
ever, it was an endorsement of his
opposition to bossism announced by
Taft at Akron, that it was not a demo-
cratic victory, that the republicans
are as strong as ever, etc.

"All of which makes us wonder
whether the few people who were
gulled by these contemptible sheets
this time will swallow their fairy
stories again when the next campaign
comes on."

"The absolute worthlessness of
great part of the political press so far

A FULL FORCE

Of Boilermakers Is Now
at the Shops

Master Mechanic Hinckley
Makes Good His State-
ment.

FROM NEW YORK STATE

Came Twenty-five Addi-
tional Mechanics Last
Night.

Carl Fletcher Assumes His
New Duties as Freight
Agent.

The strike of the boiler-makers of
the C. H. and D. shops is now over,
so far as the differences between the
men and the company is concerned,
and Master Mechanic Hinckley has
made good his statement that within
a month the shops would never know
that a strike had occurred so far as
a supply of workmen was concerned.

Mr. Hinckley said he could secure all
the men he wanted, and he has done
so. Last night there arrived from
New York state the last importation
of foreign boiler-makers, twenty-five
in number and they began service for
the C. H. and D. company this morning
with this number the men employed
in this department now numbers more
than sixty, which is a few more than
were employed when the walk-out oc-
curred less than a month ago.

The local boiler-makers have remain-
ed true to their original contention
and none of them have ever applied
for their old jobs. Already half of
them have been employed in other
cities many. It is understood, having
gone to Muncie, Indiana, during the
past two days. There is a strong
hope in the breasts of Lima business
men, however, that the change of own-
ership of the C. H. and D. to J. P.
Morgan personally will be the means
of ending the strike for all time, as
no Erie engines will now, it is under-
stood, be brought here for repairs,
and this was the main stumbling
block to an amicable adjustment.
However, until this adjustment comes
it is a sorry fact that with the fore-
men quartered in the shops there are
sufficient boiler-makers to handle all
the work, though it is frankly ac-
knowledgeed that there is not the ef-

cient, skilled force there as existed
before the strike.

Fletcher Takes Charge.
Carl Fletcher assumed the reins at
the Lake Erie and Western freight
house this morning and is now in full
charge. The appointments as an-
nounced by him two weeks ago are
confirmed and the first day of his
official life started with many con-
gratulations for him.

All at Work.
All the new freight engines which
stood in white lead so long at the C.
H. and D. shops are now in service
and as an engineer said this morning,
"Yes, they are all being used, and are
pretty nearly worn out, already."
While this was a decided hyperbole,
it is a fact that they are being kept
going night and day, and that the
demand for motive power and cars is
greater than the supply.

THE LAST CHANCE.

will be drawn Saturday evening at
8:30 at Catt & DuGray's (and a few

MORGAN WAS GOLD-BRICKED.

Has Called Zimmerman
to New York

Inquiry Has Been Started
Regarding the C. H.
& D. Sale.

TEN MILLIONS MISSING

In Values on the Goods Pur-
chased By the Erie
Road.

Story of the Manipulation of
The Great Central
Deal.

J. P. Morgan will begin today a
personal investigation into the circum-
stances of the Erie-Cincinnati, Ham-
ilton and Dayton deal, as the result of
which he possesses a gold brick at
something like \$12,000,000, says a New
York dispatch.

Eugene Zimmerman, who has figur-
ed at the head of various syndicates
which at times have had possession
of the Cincinnati, Hamilton and Day-
ton, will be called into conference by
Mr. Morgan. It is understood. Some-
where somebody transferred from the
road about \$10,000,000 worth of its
most valuable assets in the shape of
bonds.

Much depends on the exact time of
the transfers. Sensational develop-
ments are expected almost immedi-
ately in this connection.

Wherever financiers gathered today
there was wonderment over the new
turn in affairs.

It was agreed on all sides that some-
one had imposed upon Mr. Morgan,
who never takes up a business propo-
sition until it has been looked into
by one of his business partners. When
a business proposition has been
thoroughly investigated, if it be deem-
ed a good enough one to submit to
Mr. Morgan that is done. Then it
is that Mr. Morgan puts the finishing
touches to the purchase. He makes
the report that has been made to
him by the partner or lieutenant of
his to whom the matter has been
referred over for investigation.

Just who the wicked partner is that
has been investigating in regard to
the C. H. and D. and Pere Marquette
was not made known today. It may
be, too, that this was one of those

things that Mr. Morgan thought he
knew all about himself and believed
investigation unnecessary. That the
combined railroads could be sold by
him to the Erie there was no ques-
tion, for Mr. Morgan is himself a large
part of the Erie, and could do a great
deal toward having his own course
ratified. But, above and beyond ev-
erything else, today this looked up:
Who was it that imposed upon J. Pier-
pont Morgan?

Pere Marquette the Trouble.
It is the Pere Marquette that has
caused the trouble—a road pronounced
to be without head or tail and
with only a body, beginning nowhere
and ending nowhere. It was said to-
day that when President Underwood
and his associates got through with
their tour of inspection they were dis-
comfited in connection with the Pere
Marquette, its contracts and its fore-
ed employment of the lines of other
roads to get anywhere. They at once
set up the protest and ended in Mr.
Morgan taking back his roads.

Among a few the opinion was ex-
pressed that it might have been due
to the reawakened public conscience
as to the duty of directors resulting
from the work of the insurance inves-
tigation committee that prompted the
divorce of the Erie and its new con-
nections. Be that as it may, divorced
they are, sure enough, and now New
Yorkers are guessing as to what Mr.
Morgan intends doing with what has
been thrown back on his hands.

The office of J. P. Morgan & Co.,
all the brains of that banking in-
stitution were on hand this morning.
There it was said that the transaction
by which Mr. Morgan took the roads
did not represent a repurchase, for the
reason that the property had been
actually passed to the Erie railroad.
This presumably referred only to the
actual delivery of the stock. The pur-
chase of the Cincinnati, Hamilton &
Dayton was formally announced by
the Erie on September 29, and on Oc-
tober 3 was announced an issue of
\$12,000,000 of convertible bonds for
the purpose of financing the purchase.

While the reason for the repurchase
of the property by Mr. Morgan is that
at rather than stated in the official
announcement of the Erie railroad, the
alleged reasons underlying the trans-
action were freely stated today in
some quarters.

The recent resignation of Russell
Harding from the vice presidency of
the Erie, it was said, was only an in-
cident in developments which have
now led on to the return of the Cin-
cinnati, Hamilton and Dayton prop-
erty to Mr. Morgan.

Irretrievable Traffic Agreement.
Among the things that have been
special objects of criticism by the
management of the Erie railroad was
the traffic agreement between the C.
H. and D. and the Detroit, Toledo and
Ironton. This agreement, it is stated,
was drawn up by Mr. Harding, at
that time vice president of the C. H.
and Dayton line.

Another matter that was regarded
unfavorably by the Erie management

Hood's Pills

tary canal. They act gently yet
promptly, cleanse effectively and

Sold by all druggists. 25 cents.

was the purchase some time ago of
the Chicago, Cincinnati and Louis-
ville by the C. H. and D. The Day-
ton's guarantee of dividends on Pere
Marquette stock was also regarded
as having been ill advised.

These, as well as other minor mat-
ters, are said to be at the bottom of
the resale of the property by the Erie.
In round figures the Cincinnati,
Hamilton and Dayton purchase called
for about \$10,000,000, and this sum ap-
pears to fix the financial responsibility
assumed by Mr. Morgan in taking the
property back from the Erie.

Payment for the C. H. and D. stock
was to have been made out of the
proceeds of the \$12,000,000 of convert-
ible bonds offered by the Erie railroad
to its stockholders. Payment in full
for these bonds was to have been
made on Monday last. From a state-
ment made by a member of the firm
of J. P. Morgan & Co. it appears that
the proceeds of these bonds and not
yet been turned over to the Morgan
firm in payment for the C. H. and
D. stock.

It was said that it was the first
trip of inspection made by President
Underwood and several of the vice
presidents, accompanied by Russell
Harding that first aroused Erie men's
suspicions that some of the company's
controlled by the C. H. and D. would
not specially benefit the Erie and
would, in fact, do great harm to
the Erie. Contracts were discovered,
it was said, conveying rights to out-
side companies which the C. H. and
D. was supposed to enjoy.

Although, Erie men decided that
"the goods delivered were not up to
sample."
Then, again, the C. H. and D. has
been bandied about among various
syndicates for so long that control of
it is hedged about by a mass of con-
flicting claims for profits and com-
missions. It is possible that this fact
had something to do with the bargain.
All of this led up to the meeting of
yesterday, when Mr. Morgan was
handed back his roads.

Hot Time in Erie Board.
Additional details as to the meet-
ing of yesterday were learned today.
It is understood that bitter recrim-
inations were indulged in over the
purchase, which was criticised as ab-
solutely detrimental to the future of
the Erie system and that E. H. Harri-
man and Norman B. Ream supported
President Underwood in his conten-
tion that the road should never have
been bought. At the time the deal was
made Mr. Harriman was abroad and
Mr. Underwood was on a trip to the
west.

It was owing to the heated discus-
sion of this matter that Mr. Morgan
sprang to his feet and volunteered
to take back the unwelcome property.
It is believed that the C. H. and
D. will not be consolidated with any
other system for the next year or so.

Members of the original syndicate
called attention today to the fact that
when they turned the property over to
the Hollins syndicate the Pere
Marquette was free from debt and the
C. H. and D. had no floating indebted-
ness, and had even loaned out \$500,
000 of unemployed funds at interest.
Since then they said, heavy interest-
bearing obligations had been added
to the property, amounting to about
\$600,000. It has been currently re-
ported that the road during the last
fiscal year has not earned its fixed
charges within \$1,000,000.

The absorption of the C. H. and D.
by the Erie had progressed so far
that the Erie management announce-
ed some time ago that the designation
"Erie System" would hereafter cover
all the C. H. and D. and Pere Mar-
quette lines, as well as the Erie lines,
proper, and that the term "Great Cen-
tral," by which the Dayton system
was known, would be abandoned.

About a month ago a meeting of the
Cincinnati, Hamilton and Dayton was
held, at which an Erie Board was
elected, including Charles Stele,
Samuel Spencer, George F. Baker and
F. D. Underwood, president of the
Erie, who was made president of the
C. H. and D. Russell Harding, the
first vice president, was also made
vice president of the Erie, making
him the vice president of the entire
system, including the Erie, Cin-
cinnati, Hamilton and Dayton and the
Pere Marquette.

On November 18 Mr. Harding re-
signed from the Erie.

Story of Stock Deals.
It was said today that J. Pierpont
Morgan bought between 55,000 and
65,000 shares of Cincinnati, Hamilton
and Dayton stock from H. B. Hollins
and his associates. A syndicate or-
ganized by Eugene Zimmerman had
bought a majority of the common
stock and retired the preferred stock
at a good price, when the preferred
stockholders threatened to make trou-
ble over the road's purchase of the
Pere Marquette. The Zimmerman
management of the Cincinnati, Ham-
ilton and Dayton road paid \$25 a
share for control of the Pere Mar-
quette to a previous syndicate, which
had acquired it at \$85 a share.

This purchase was paid for in col-
lateral trust bonds, and guaranteed 4
per cent on Pere Marquette preferred
and 5 per cent on the common. Then
a syndicate organized by H. B. Holl-
ins & Co., paid \$135 a share for a
controlling interest in the Zimmerman
syndicate holdings, which were held
together by an agreement that a sale
should be made of all or none of the
shares.

It was officially stated that J. P.
Morgan and Co. were to turn the stock
over to the Erie at the price they paid
the Hollins syndicate—\$140 per share.

This latest step in the C. H. and
D. history comes as the climax to
many interesting developments in con-
nection with the affairs of the road.
It became known some time ago that
just before the purchase of the line
by J. P. Morgan & Co., an effort was
made by John W. Gates and others
to buy the property, and that the pur-
chase by Morgan & Co. was hasten-
ed by the fact that Mr. Gates was
negotiating for the property. It was
said that Mr. Morgan did not wish a
repetition of the L. and N. incident,
in which Mr. Gates and his associ-
ates made a large profit by selling
control of that road to J. P. Morgan
& Co., after the Gates syndicate had

taken control of it from its former
owners.

Stock Market Sentiment.
The \$12,000,000 of convertible bonds
issued to pay for the Cincinnati, Ham-
ilton and Dayton road were put out
under the general mortgage of 1905,
which authorized a total of \$20,000,000
to be issued to pay for improvements,
acquisitions and the like. The first
issue was made under this mortgage
in 1903, \$10,000,000, called Series A,
and the Cincinnati, Hamilton and
Dayton purchase bonds, called Series
B, were authorized on September 29
last. Payments for these bonds were
to be made in full on or before Mon-
day last, and it is thought that the
renewal of these bond offerings may
have had something to do with the
change of plans.

Before it was announced that J. P.
Morgan had bought from H. B. Hollins
with whom it had been lodged, a con-
trolling interest in the Cincinnati,
Hamilton and Dayton, and that the
property would be sold to the Erie,
Wall Street had manifested a rather
bullish disposition toward the Erie
securities. Since the announcement
that the Erie would take the Cin-
cinnati, Hamilton and Dayton the Erie
stocks have been decidedly heavy, in
contrast with their former tone at
least.

The rights to subscribe to Series
B bonds, which were offered to Erie
stockholders at par and interest, were
almost literally kicked around the
street. They sold for a mere song,
the last price being something like
cents for the rights on 100 shares
of stock. It is considered doubtful if
the subscriptions for the bonds were
any encouragement to complete the
sale of the Cincinnati, Hamilton and
Dayton to the Erie.

It is more than likely that the fact
that the Erie is not to take the Cin-
cinnati, Hamilton and Dayton will be
regarded as favorable to the Erie
securities. What the effect of yester-
day's events may have on the plans
to make use of or dispose of the Cin-
cinnati, Hamilton and Dayton remains
to be seen.

When it was known only that Mr.
Morgan had bought the property, and
before it was arranged to sell it to
the Erie, it was rumored that the
property might be split up, part going
to the Vanderbilt system. As it is
now, some arrangement may be de-
vised along this line so that the Erie
could take over a portion.

STYLE

THERE is one quality in a shoe that is hard to describe. It is not beauty, nor cut, nor fit, nor wear. It is *Style*. Some shoes have it; but most shoes lack it.

Q The "Dorothy Dodd" stands first among stylish shoes. The style, for instance, of our new low top "Varsity Boots" is the first thing that attracts the attention. They are smart and trim. They are boots of distinction. Q Every foot can be made stylish in a pair of these. But do not take our word for this. Merely try on a pair and see the difference in the appearance of your feet.

Q We have "Dorothy Dodd" shoes in all leathers and for all services and occasions. All are moderately priced at

\$3.50 & \$3.00
